I am an active student majoring in informatics engineering at Maranatha Christian University who has an interest in programming and web development, always wants to try and learn new things and I am an adaptable person.

EXPERIENCE

Laboratory Staff - Part-time on Campus, Maranatha Christian University July 2022 – Present

- Fulfilling the role of a laboratory staff member, responsible for the upkeep, maintenance, and preparation of the web fundamentals laboratory environment.
- Ensuring that all equipment and resources are in proper working order, creating a conducive learning space for students to engage with practical exercises.
- Collaborating with the teaching team to ensure that laboratory sessions align with the curriculum and provide students with hands-on experience in applying the concepts learned in their web basics courses.

Assistant Lecturer on Campus, Maranatha Christian University Sept 2022 – Jan 2023

- Serving as a teaching assistant for fundamental web courses, providing support and guidance to students facing challenges.
- Engaged as a teaching assistant for foundational web courses, offering assistance and mentorship to students who may encounter difficulties in their learning journey.
- Collaborating with the lead instructor to develop supplementary materials and interactive activities that cater to diverse learning needs.
- Providing one-on-one consultations and constructive feedback to address individual student concerns and enhance their comprehension of fundamental web concepts.

Member of the Academic Division of the faculty organization SEMAFIT, Maranatha Christian University Feb 2023 – Sept 2023

- Coordinated educational events such as seminars, workshops, and training sessions aimed at improving understanding of academic and technical subjects within the Information Technology field.
- Extend invitations to specialists or professionals from specific fields to give lectures or speeches to members.
- Organize academic contests or competitions to motivate members to apply their skills in a competitive arena.

Internship as Front-end Web Developer, WIT.ID Sept 2023 – Jun 2024

- Front-end Development Using Laravel and Vue.js frameworks, responsible for developing responsive and engaging user interfaces for WIT.ID web applications. This involved the design and implementation of page layouts, user interface components, and interactive functionality.
- Participate in team meetings and collaborate with back-end development, design, and project management team members to understand application needs and ensure consistent, quality delivery.
- Perform performance optimizations on front-end code to ensure the application runs smoothly and efficiently, including workload optimization and display speed.
- Work closely with the design team to integrate a given user interface (UI) and user experience (UX) design into front-end development, focusing on usability and aesthetics.
- Conduct systematic testing of developed features, identify bugs, and fix issues quickly. Collaborate with QA team to ensure high code quality.

SKILLS

- *Intermediate Front End Web Development:*
Proficiency in creating visually appealing and responsive user interfaces using HTML, CSS, PHP, and JavaScript.
- *Intermediate Web Back End Development:*
Skills in developing server-side logic, databases, and APIs to support web application functionality.
- *Microsoft Office Suite:*

Competency in using Microsoft Office tools such as Word, Excel, and PowerPoint for various business tasks.

- *Intermediate level in python, java, php, javascript programming languages:*
Ability to work with various programming languages, enabling the development of diverse applications.
- *Proficiency in HTML, CSS, FXML markup languages:*
In-depth understanding of markup languages to structure and organize content across multiple platforms.
- *Intermediate level in MS SQL, MySQL:*
Proficiency in working with relational databases, enabling effective data storage and retrieval.
- *Intermediate level in Bootstrap, Tailwind, Next.js, React.js, Laravel frameworks:*
Skills in using popular frameworks to streamline and enhance web application development.

ACHIEVEMENTS

- | | |
|---|------|
| • 3rd Place in Web Design Competition, <i>Universitas Atma Jaya Yogyakarta</i> | 2021 |
| • Finalis in Web Design Competition, <i>Universitas Atma Jaya Yogyakarta</i> | 2022 |
| • 1st Runner Up Web Development, <i>Universitas Kristen Satwa Wacana</i> | 2023 |

EDUCATION

- | | |
|--|--------------------|
| S1 Informatics Engineering, <i>Maranatha Christian University</i> | Sept 2021– Present |
| • GPA: 3,7 | |
| SMA IPA, Smas Yadika Kalijati | Sept 2018 – 2021 |
| • Final Grade: 85 | |
